I thought it was only to meet up. I never imagined that those traitors would collapse into the revolution early.

The situation was precarious, like was really hard to a crisis.

If you don't believe me, just take a look at this scene. Even now, I can see you still stand alone left behind by the masses.

Really, thank you for your advice.

So how did you manage to escape?

Afterwards, we didn't stay all of us and to stay in the wall, we were denied food for a day.

Good, it's not good to go on an empty stomach. Good for you, but not for me.

Don't worry, you'll find someone looking for you outside.

Thank you for your advice.

My whole life has been a mess. I never had any real friends. I was always alone. I was always alone.

A friend who never comes. I never had any real friends. I was always alone. I was always alone.

Good, it's not good to go on an empty stomach. Good for you, but not for me.

Flowers bloom and wither. Life is like a dream. A beautiful dream.

They are all dead.

That's what you want. You want to be a hero. You want to be a hero.

And here you are.

We should be happy. We should be happy. We should be happy.

My whole life has been a mess. I never had any real friends. I was always alone. I was always alone.

A friend who never comes. I never had any real friends. I was always alone. I was always alone.

Good, it's not good to go on an empty stomach. Good for you, but not for me.
